

### Frequently Asked Questions:

**Q: Will I need a driver to come with me?**

A: Yes, if you are going to have any type of procedure we require that a driver accompany you on the day of your visit.

**Q: Will I need to stop my blood thinner?**

A: Yes. First you will have to obtain the permission of the prescribing Physician. We will then work with you to coordinate the length of time you will have to be off of the medication before your procedure.

**Q: Should I bring my medications with me?**

A: Yes. This is very important! Please bring ALL of your medications with you OR a complete list of all medications with the doses.

**Q: Do I need to bring any x-rays with me?**

A: Yes. You will need to bring any x-rays including MRI or CT scans that you might have had recently. If you do not have the films please bring the Name and Telephone number of the center where you had the x-rays performed.
